PROFILE

5th-semester Information Technology student interested in software development, databases and technical support. I have experience in academic projects that combine programming, databases and cloud services. I am looking for an internship where I can apply what I have learned, learn from a team and grow in a real work environment.

EDUCATION

Universidad Politécnica de San Luis Potosí Expected graduation: December 2028
B.Eng. in Information Technology (currently in the 5th of 9 semesters)

PROJECTS

- **Real-time chat** *(Java + AWS):* team project; a live messaging app with the server hosted on AWS.
- **Academic records system** *(PHP + MySQL):* web platform where students enter their student ID and get their GPA, their schedule and suggestions for next semester's courses. It includes administrator and teacher roles with different permissions.
- **Virtual piano** *(C++ + OpenCV):* computer vision app that detects colors in the camera image and assigns a musical note to each one.
- **Ball Sort** *(C):* console logic game built with structured programming.
- **Instagram followers comparer** *(Python):* script that analyzes exported account data to find who does not follow back.
- **Study and task planner (in development)** *(web app):* organizes tasks with automatic rescheduling and a heat map of daily workload.
